Gas Valve Actuator 40mm

The Gas Valve Actuator 40 (GVA40) is a cost effective, high performing 40mm hot gas actuator valve. Based on Turbosmart's industry leading Gen-V external wastegate technology the GVA provides extensive user configurability, world leading extended thermal performance, fatigue resistance and best in class flow performance for optimum control and longevity.

- Liquid cooling provision
- Strap type V-band clamp
- User adjustable actuator position
- Modular actuator design
